gamete.: If applicable)

I understand that I shall have no rights whatsoever on the resulting offspring and vice versa.

I understand that the method of treatment may include:

1. Stimulating my ovaries for multifollicular development.
2. The recovery of one or more of my eggs under ultrasound-guidance or by laparoscopy under
sedation or general anesthesia.
3. The fertilization of my oocytes with recipient's husband's or donor sperm and transferring the
resulting embryo into the recipient.

I understand and accept that the drugs that are used to stimulate the ovaries to raise oocytes have
temporary sideeffects like nausea, headaches and abdominal bloating. Only in a small proportion of
cases, a condition called ovarian hyperstimulation occurs where there is an exaggerated ovarian
response. Such cases can be identified ahead of time but only to a limited extent. Further, at times
the ovarian response is poor or absent in spite of using a high dose of drugs. Under these
circumstances, the treatment cycle will be cancelled.
